A Passion for measuring BP

Performing in Extremes

Taking BP for over **30 years**

Performance in difficult environments & patient populations

The *Cauldwell Xtreme Everest Expedition* utilized SunTech Medical non-invasive blood pressure systems in temperatures as low as -25° Celsius at altitudes over 6400 meters.

SunTech in Space

A photograph of an astronaut in a white spacesuit floating in space. The astronaut is positioned in the center-right of the frame, with their body angled towards the viewer. The background shows the Earth's horizon with a thin blue atmosphere and a vast expanse of dark space filled with stars. The lighting is bright, highlighting the details of the spacesuit and the curvature of the planet.

BP Cuff

- Disposable and Vinyl cuffs engineered to meet infection control and comfort needs
- Single and Two-Piece Durable cuff designs
- Cuff & Connector Standardization Program

OEM Blood Pressure Technology

Our Technology. Your Solution.

Answer these questions and you'll be on your way to a blood pressure monitoring system that's tailor made to match your specific needs.

OEM NIBP

1 What's your clinical environment?

- Patient Monitoring**
- Emergency Transport**
- Hemodialysis**
- Kiosk Health Station**
- Veterinary**
- Custom Applications**

2 In what countries will you sell this device?

3 Which of these features best match your top priorities?

- Price**
- Power Efficiency**
- Physical Size**
- Severity of Environment**
- Customization**
- Other Priorities**

Cardiac Stress Test Blood Pressure

Don't Miss a Beat

Cardiac Stress Test Blood Pressure

Tango M2: Automated, Hands-free Blood Pressure Measurement

Orbit-K cuff: Patented design maintains proper placement

Proprietary DKA technology acquires accurate BP in high noise and motion environments

Veterinary Blood Pressure

Better BP for Pets and Vets

SunTech Vet BP

Accurate: BP algorithm specifically developed for companion animals by experts at a leading vet school.

Fast: Measurements take less than 1 minute. Doppler takes 10 minutes.

Quiet: Device quietly measures BP and alarms can be silenced to avoid frightening the animal.

Portable: Small, battery-operated device easily carried to another exam room.

SunTech Vet BP

Vet20: SunTech's original veterinary monitor is the simplest way to get a BP on an awake cat or dog.

Vet25: Designed to be flexible – for measuring BP in the exam room or operating room

Vet30: Combines trusted SunTech BP technology with oxygen saturation and temperature monitoring for animals pre-, post-, or during a procedure.
